Regional Operations Center  
Salt Lake City, UT*

# **WEATHER KEY POINTS**

**11/04/21 - 11/10/21**

## **Thursday-Wednesday**

- Gusty winds of 40 to locally 60 mph will persist across the far northern California mountains and the Sierra through early Thursday afternoon, decreasing later Thursday. Additional periods of gusty winds are possible through the weekend.
- Periods of showers will also continue across far northern California through early evening, especially across the higher terrain
  - No significant impacts are expected from this precipitation
  - Snow levels will dip to around 7,000 feet today before precipitation ends
- Additional storm systems will impact mainly northern California through the weekend and first half of next week, with primarily beneficial rainfall and high elevation snow, though some minor coastal flooding is possible across the Humboldt Bay area Friday and Saturday
